

KARAN GOBADE

Python Developer | Backend Developer | Full Stack Developer | Software Tester

Nagpur, Maharashtra, India | karangobade01@gmail.com | +91 7057462075 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

IT graduate with hands-on experience in Python, Full Stack Development (FastAPI, Flask, Django), JavaScript, REST APIs, relational and NoSQL databases, and software testing. Built and deployed multiple production-ready web applications, including a full-stack blog platform with a self-driven security audit. Strong foundation in DSA, OOP, and networking, with published research on secure peer-to-peer systems. Seeking an entry-level Software Developer / Python Developer role.

TECHNICAL SKILLS

Languages: Python, JavaScript

Frameworks: Django, Flask, FastAPI

Web: HTML5, CSS3, JavaScript, REST APIs

Databases: MySQL, MongoDB, SQL, SQLAlchemy, DBMS

Libraries: NumPy, Pandas

Testing: Manual Testing, Bug Tracking, Software Testing / QA

Tools & Cloud: Git, GitHub, CI/CD, Postman, JSON, VS Code, Oracle Cloud Infrastructure, Render, GitHub Pages, Cloudinary

Concepts: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, Socket Programming, Network Security

EXPERIENCE

Python Development Intern — QSkill (Squarcell Resource India Pvt. Ltd)

Jul 2026 – Aug 2026

- Selected for a virtual Python Development internship focused on applied learning, skill development, and hands-on project experience.

Python Full Stack Developer Trainee — EduSkills Academy (AICTE)

Apr 2026 – Jun 2026

- Completed an intensive Python Full Stack Development program covering Flask, FastAPI, REST APIs, and frontend integration.
- Built and deployed web applications using a Python backend with an HTML/CSS/JS frontend; applied NumPy and Pandas for data handling and analysis.
- Gained hands-on database design experience using MySQL and MongoDB.

Cybersecurity Virtual Intern — Fortinet & EduSkills (AICTE Supported)

Jan 2024 – Mar 2024

- Completed a 10-week Network Security Associate program covering core cybersecurity and network security concepts.
- Worked on simulated real-world threat detection and mitigation scenarios.

PROJECTS

Personal Blog Platform — Flask, Python, MySQL, Cloudinary

- Built and deployed a production full-stack blogging platform from scratch with user authentication, rich content management, and cloud-based media handling via Cloudinary.
- Conducted a self-driven security audit and patched multiple real-world vulnerabilities beyond a typical CRUD application.

Finance Tracker API — FastAPI, Python, MySQL

- Developed a FastAPI backend for managing personal income and expense records with secure RESTful CRUD APIs.
- Implemented data validation and error handling; designed efficient MySQL data models with proper schema design.

Bug Tracking System — Python, MySQL

- Built a full bug lifecycle management system supporting reporting, assignment, tracking, and resolution.
- Implemented issue status, priority levels, comments, and a reporting dashboard for QA workflows.

P2P File Sharing System — Python, Networking, Security

- Built a decentralized file transfer system using socket programming with secure peer-to-peer transfer, connection management, and data integrity checks.
- Findings published as two peer-reviewed research papers (IJIRT and IRJMETS).

Binance Trading Bot — Python, REST API, CLI Development

- Built a CLI-based automated trading application using the Binance Futures REST API with Market, Limit, and Stop-Limit order execution, secured via HMAC-SHA256 request signing.

EDUCATION

B.Tech, Information Technology — Nagpur Institute of Technology, Nagpur (CGPA: 7.5)

2023 – 2026

Diploma, Computer Science & Engineering — V.A.P. Mahavidyalaya, Almala, Ausa (Score: 73%)

2021 – 2023

Secondary School (Class X), Shri Shivaji High School, Latur (Score: 80%)

2020

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 – Certified Foundations Associate (May 2026); MongoDB Overview: Core Concepts and Architecture, MongoDB Inc. (Dec 2025); Network Security Associate, Fortinet & EduSkills/AICTE (Mar 2024)
- Introduction to Software Testing, Simplilearn SkillUp (Feb 2026); Data Structures & Algorithms in Python, Simplilearn (Dec 2025); Django Skill Up, GeeksforGeeks Nation SkillUp Program
- NumPy & Pandas – Data Analysis with Python, Simplilearn SkillUp; JavaScript for Beginners, Simplilearn SkillUp (May 2026)
