

KARAN GOBADE

IT GRADUATE | PYTHON DEVELOPER | FULL STACK DEVELOPER | SOFTWARE TESTER

✉ karangobade01@gmail.com | ☎ +91 7057462075 | 📍 Nagpur, Maharashtra, India | 🌐 github.com/karangobade | 🌐 karangobade.github.io/portfolio/

PROFESSIONAL SUMMARY

Detail-oriented and motivated Information Technology graduate with strong proficiency in **Python** programming, full stack development, **JavaScript**, software testing, databases, and cybersecurity fundamentals. Experienced in developing backend systems, building web applications, testing software, and working with modern technologies. Eager to contribute technical skills, problem-solving ability, and a continuous learning mindset to deliver high-quality solutions and add value to an organization.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology
Nagpur Institute of Technology, Nagpur
2023 – 2026

Diploma – Computer Science & Engineering
Vishveshwarayya Abhyantriki Padvika Mahavidyalay, Almala, Ausa
2021 – 2023
Score: 73%

Secondary School (Class X)
Shri Shivaji High School, Latur
2020
Score: 80%

TECHNICAL SKILLS

Programming Languages : Python, JavaScript
Frontend : HTML, CSS, JavaScript
Backend : Python, FastAPI
Databases : MySQL, DBMS, MongoDB
Testing Tools : Manual Testing, Bug Tracking
Concepts : Data Structures, Algorithms, OOP, DBMS, OS, Computer Networks
Other Tools : Git, GitHub, REST APIs, JSON, Postman, VS Code

WORK EXPERIENCE

Virtual Internship – Fortinet Jan 2024 – Mar 2024

- Gained foundational knowledge in cybersecurity concepts and network security.
- Worked on simulated real-world security scenarios.
- Learned about threat detection and mitigation strategies.

CORE COMPETENCIES

Frontend Development
HTML, CSS, JavaScript

Backend Development
Python, FastAPI

Python Development
Python, OOP

Database Management
MySQL, MongoDB

Software Testing
Manual Testing, Bug Tracking

Problem Solving
DSA, Algorithms, Logical Thinking

PROJECTS

AI Text Classification App (Sentiment Analysis) | May 2026

An AI-based sentiment analysis application built using Python, PyTorch, and Hugging Face Transformers. The application performs text classification and predicts whether a sentence has positive or negative sentiment.

Finance Tracker | Apr 2026

Developed a backend application using FastAPI to manage personal income and expense records. Implemented secure RESTful APIs for adding, updating, deleting, and retrieving transactions. Designed efficient data models and ensured proper validation and error handling for reliable performance.

Bug Tracking System | Nov 2025

Built a bug tracking and management system that allows users to report, assign, track, and resolve software issues. Implemented features like issue status, priority, comments, and reporting to improve collaboration and streamline the bug resolution process.

Student Management System (Python & MySQL) | Jan 2024

Developed a console-based application to manage student records. Performed CRUD operations such as add, update, delete, search, and view using Python and MySQL. Ensured data integrity, efficient database interaction, and proper user input validation.

Peer-to-Peer File Sharing System | Oct 2025 – Present

Designing and developing a decentralized file sharing system using socket programming. The system enables secure and efficient transfer of files between peers over a network with features like connection management and data integrity checks.

CERTIFICATIONS

Cloud & Database

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate – Oracle University (May 4, 2026)
- MongoDB Overview: Core Concepts and Architecture – MongoDB, Inc. (Dec 7, 2025)

Quality Assurance & Cybersecurity

- Network Security Associate (10-Week Virtual Internship) – Fortinet & EduSkills (Supported by AICTE) (Mar 2024)
- Introduction to Software Testing – Simplilearn SkillUp (Feb 8, 2026)

Python & Web Development Frameworks

- Django Skill Up – GeeksforGeeks (Nation SkillUp Program)
- Data Structures & Algorithms in Python – Simplilearn SkillUp (Dec 1, 2025)
- Python Programming – Reliance Foundation Skilling Academy & Skill India Digital Hub (Aug 19, 2025)
- Vibe Coding Course – Simplilearn SkillUp (Feb 18, 2026)

Artificial Intelligence & Machine Learning

- Build a Computer Vision App with Azure Cognitive Services – Microsoft (Offered through Coursera) (Aug 16, 2025)
- Introduction to Prompt Engineering with GitHub Copilot – Microsoft & Simplilearn SkillUp (Nov 1, 2025)
- Code Generation with Generative AI – Simplilearn SkillUp (Feb 27, 2026)
- Generative AI for Beginners – Simplilearn SkillUp (Oct 31, 2025)

Workplace Professionalism

- Digital Productivity – NIIT Foundation & UNICEF (Passport to Earning / YuWaah! Initiative) (Jul 14, 2024)
